

**EARTH REMOVAL STORMWATER ADVISORY COMMITTEE  
TUESDAY, NOVEMBER 5, 2019, 7:00 PM  
MINUTES**

Chairman Perkins called the meeting to order at 7:00 PM at the Town Hall

Members present: Edward Perkins, George Barringer, Bob Hanninen, and Eileen McHugh  
Member absent: Tom Delaney

**NESSP TEMPLE UPDATE**

Engineer William Murray of Places Associates requested that the subsurface drainage structure be revised because the approved plan showed a “jellyfish” system, which is old technology. The change must also be approved by the Planning Board and Conservation Commission.

Stormwater Inspector Michelle Collette asked if the manufacturer’s representative would be present at the installation. Mr. Murray said, “yes.”

The Committee received a report dated November 1, 2019 from Nitsch Engineering recommending approval of the revision.

The motion was made by Barringer, seconded by McHugh to approve the minor revision as described in the letters dated October 24, 2019 and October 28, 2019 from Places Associates. The motion passed unanimously.

**NEXT MEETING**

The Committee received an application for a Full Stormwater Management Permit from Regal Brass Farms for the equestrian facility at 255 Old Ayer Road.

The Committee will walk the site on Saturday, November 9, 2019 and will hold the public hearing on November 19, 2019.

Meeting adjourned at 7:30 PM

Respectfully submitted,

Michelle Collette  
Earth Removal Stormwater Inspector
