**Subject:** Shepley Development

To the Board,

Please take care in your decision on this proposed development. This is too critical an area for disruption of habitat and destruction of wetlands. I beg you to not compromise on the value of this wetland, for the sake of development. It is a unique, pristine area of Groton that should be preserved. I have slogged around the back of this land for 40 years and no matter what the season, it remains wet. Please protect it.

Thank you!

Liz Alexander
