Free Referral Help from MassOptions

MassOptions is a free resource linking elders, individuals with disabilities, caregivers, and family members to services that help you or a loved one live independently in the setting of your choice. They help individuals avoid the frustration of calling multiple agencies and navigating various networks. They will provide you with information about and connections to community services and supports, empowering individuals to make informed choices about care they may need or want. Trained specialists at MassOptions give individuals fast, personalized attention. All one needs to do is tell the trained specialists about themselves or what they might need to live independently. A caller can even stay on the line while they connect you with an appropriate community resource or organization. They provide referrals and support for the following services:

**NEWS FROM SHINE JULY & AUGUST 2017**

**WHEN CAN YOU ENROLL A MEDIGAP PLAN?**

Medigap plans are health insurance plans that provide extra protection beyond Medicare by filling in some of the “gaps” in Medicare coverage. In Massachusetts, these plans allow continuous open enrollment. You must have Medicare A and B to enroll, and cannot be enrolled in a Medicare Advantage plan. Anyone who is eligible may enroll or change plans or coverage levels at any time, with changes effective the first of the following month. Note that Medigap policies do not cover prescription drugs, which are covered separately under Medicare Part D.

In Massachusetts, seven insurers offer the same two Medigap plans, Core and Supplement 1. The Core plan pays some of the co-pays for Medicare covered services, while the Supplement 1 covers all the deductibles and co-pays for these services. This means that a Medigap policy will generally pay only when Medicare approves payment. With a Medigap policy, you are free to choose any doctor or hospital that accepts Medicare and you do not need referrals to see a specialist.

**IMPORTANT INFORMATION**

Always remember that if you are turning 65 you should contact social security to enroll in Medicare. Medicare eligibility has no connection to your Eligibility for Social Security Benefits. Also, Coverage for the Health Connector does not exempt you from this requirement to enroll in Medicare, as you will lose your Health Connector subsidy when you turn 65. If you would like to meet with our SHINE Counselor, please call Stacey at 978-448-1170.

**Home Visits**

There are situations that prevent senior residents from coming to the Senior Center. The COA staff understands this, we are more than happy to visit a senior at home to provide service.

If you or someone you know would like a visit to discuss COA services, referrals, or a social visit, please call Stacey at the COA, 978-448-1170.

GERD
Acid reflux occurs when there is acid backflow from the stomach into the esophagus. This happens when the lower esophageal sphincter (LES) is weakened or damaged. Normally the LES closes to prevent food in the stomach from moving up into the esophagus. The foods you eat affect the amount of acid your stomach produces. Eating the right kinds of food is key to controlling acid reflux or gastroesophageal reflux disease (GERD), a severe, chronic form of acid reflux.

Wednesday, September 27 12:00pm
“Armenia, Bridging Past with Present”
Presented by: Mihran and Terese Keoseian

This talk and slide presentation will capture the highlights of their trip to ancient Armenia three years ago. Armenia is the country where the fabled Noah’s Ark landed on Mt. Ararat. Kharpet, the town where his father was born, was also one of the key sites of a mass genocide beginning in 1915.

While the presentation is not about the Genocide per se, it is a story of a country and its people that is placed at the crossroads of the historic Silk Road. For centuries, it has paid dearly for its location and its religious beliefs.

The Keoseians were also fortunate to have a private audience with His Holiness, Karekin II, Supreme Patriarch of all Armenians, seated at Etchmiadzin. During their tour of the country, they also enjoyed the people, festivities, food and rich culture of Armenia, returning home with a greater appreciation of its beauty and hospitality.

We welcome you to join us on… to experience a trip to ancient Armenia—a destination, to say the least, that is far off the beaten path from Groton.

Please register by calling the senior center, 978-448-1170, by Friday, 9/22

Nashoba Tech Catered Luncheon
Wed, September 13 12:00pm
Cost: $10 for meal
(with optional tip)

Program:
The Case of the Forgotten and Denied Genocide of the Armenian People

In 1915, leaders of the Turkish government set in motion a plan to eliminate the Armenian population living in the Ottoman Empire, and erase 3000 years of Armenian civilization. About 2 million Armenians resided in the Ottoman Empire in the early 20th century. By the early 1920s, some 1.5 million Turkey’s Armenians were dead, with many more forcibly removed from their ancient homelands. Today, most historians call this event a genocide—a premeditated and systematic campaign to exterminate an entire people. However, the Turkish government denies a genocide ever occurred, despite pressure from social justice advocates throughout the world for the past 100 years.
