

## Sustainability Commission Minutes April 16th, 2019

With a quorum present, the meeting convened at 7:40 pm.

The March minutes were read and accepted.

Bruce will look into the information provided by Russ Burke from the Planning Board. He will decide if there is a project that would be appropriate for the Sustainability Commission to participate in.

Pollinator Preservation Project Report – Alison/Marina

Alison will order seed for planting in the monarch butterfly habitat. The seed requires 30 days of cold stratification prior to planting. Alison will prepare the seed at the appropriate time.

Riverfest -Alison/Marina

Preparations were finalized for Riverfest participation on June 9<sup>th</sup>.

West Groton Wildflower Project Report – Carl Canner.

We discussed plans for planting this summer. The first step will be removal of invasive plants. Multiflora rose is abundant there and is being spread by birds to other locations in Groton.

The meeting was adjourned at 8:35pm.
