The 3rd grade field trip was once again a great success – the students enjoyed learning about timber framing with Uwe Tobies, the art of barrel making from Jock Snaith, soap making with Leo Wyatt. They heard from Al Wyatt what it was like as a child growing up on a farm and the different chores that needed to be done, both before and after school. The Groton Womans Club demonstrated butter making, quilting and Colonial era games. The students sent thank-you notes that they made, writing and drawing some of their favorite activities of the day. Each one was wonderful!

Groton Local celebrated Earth Day at the Barn which was attended and appreciated by many.

Leo Wyatt mentioned he may know someone who would like to design and update the Farmers Market website.

Lili Ott has offered to post information on The Groton Line with news and events happening at the Farmers Market.

The Farmers Market will open on Friday July 5 from 3:00 – 7:00 and continue thru the Friday of Columbus Day weekend – there are currently 17 vendors

Next meeting: August 1, 2013 – at the Barn

Adjourned: 5:30
