Zoning Board of Appeals Members,

The Groton Fire Department has been in regular contact with the developers at 500 Main St. Through a cooperative effort we have confirmed that the driveway layout and building designs meet our requirements for access and operations. This project will however have a definite impact on needs for service from the fire department both during the development stage and once fully occupied. While we can compare this to similar projects in other communities, the ultimate impact wont be fully realized until it is occupied.

If you have any further questions please let me know.

Thank you,

A. Steele McCurdy
