Subject: Re: FW: Cow Pond Brook Field Schedule

Hi Fran,

Thank you for sending this along. Our neighbor filled us in on the previous meeting.

The universal reaction (from abutters and nearby residents) to the proposed traffic study scope was laughable and wholly inadequate.

We've made several recommendations both in-person at the ZBA meetings and via emails to the ZBA.

We hope the ZBA will seriously consider this feedback/input in order to conduct a traffic study that can lend itself to meaningful data points. The local residents are the ones that know the traffic patterns the best, when the "crazy" times are, and what adding 75+/- (1.9 vehicles per household in MA in 2022) more local vehicles to our road would likely do for safety and quality of life.

My main recommendation for the traffic study scope is to let the study run for at least a full week. I.e., Set up the system Sunday night and come back the following Sunday night to take it down. This should be conducted when a normal schedule is expected (i.e., not during holiday breaks).

We hope town officials are sincere when they say they want to hear from the local residents. We have provided feedback at every opportunity and hope it is being taken seriously and into consideration.

Thanks,
Justin

Dear Justin:

At yesterday's ZBA meeting, Bruce Easom shared this schedule with the Heritage Landing representatives. At the September 20 meeting, the ZBA will try to work out a traffic study scope with the developer. Abutter input will be welcomed. There were not very many people in attendance last night so I wanted to share this information with you.

Thanks.

-Fran
